FEATURED EXPERIENCE

Software Engineer (Multiple Roles)– *Vanguard*
Malvern, PA - Jan 2019 - Present

- **DevOps:** Building Dexter CLI tool to automate and improve various Vanguard CI/CD pipelines and software delivery processes, while fulfilling our stringent internal and external regulatory requirements.

- **Front-End & Full-Stack:** Built UIs and APIs for an experiment management platform within the client experience department to manage distributed teams across the enterprise simultaneously launching various client-facing experiments to several vanguard sites.

Front-End Web Developer – *Wolters Kluwer*
Philadelphia, PA - July 2017 - Jan 2019

- Developed and designed custom, scalable UI components for NursingCenter.com, Audio-digest.com, and several other client-facing products in an agile scrum environment.

Web Developer – Freelance
Remote Work / Greater Philadelphia & New York Area - Feb 2017 - Jul 2017

- Worked closely with clients to build custom, responsive, mobile-first websites from design to deployment with a focus on compelling user experience in order to drive business results.
